

### Reduced Administration

Without the additional expense of a dedicated fleet administrator, the burden of administering vehicles usually falls on senior managers whose time could be more profitably spent on other business areas. Most managers do not have a high level of vehicle technical expertise, which can result in overcharging or unnecessary work being carried out.

**Calas agreements are professionally managed, verifying all work requests and offering a host of ancillary services to meet the most demanding business needs.**

### Manufacturer's Warranties Maintained

New EU regulations allow non-franchised dealers to maintain your car without invalidating the warranty cover. Block Exemption Regulations, or BER, now enable motorists to choose any appropriate garage to service and repair their vehicle.

In October 2003, EU legislation known as "Block Exemption Regulations 1400/2002" or "BER" gave the motorist additional freedom to choose who maintains their vehicles. Before the "BER" ruling, it was extremely difficult to service and maintain vehicles that were covered under the manufacturer's warranty outside of the franchised dealer network without invalidating the warranty cover. The "BER" EU regulation now allows the motorist a choice of any garage to service and repair their vehicle without invalidating the manufacturer's warranty.

**Calas independent network repairers meet the requirements of "BER" and adhere to the criteria required that ensures your vehicle warranty is maintained.**

### Comprehensive National Network Cover

Each Calas garage has been rigorously vetted to ensure you receive exceptional quality service. We assign the local Just Drive assistance repairer that's most appropriate for each vehicle in your fleet.

**Furthermore, when that vehicle's out on the road, whether it be for business or leisure purposes, any one of our nationwide Calas centres is authorised to provide emergency cover without any additional cost to your company.**

### As Flexible As You Want It To Be

Calas fixed priced agreements are based on a mileage allowance over a flexible term. You pay a pre-agreed monthly amount and when authorised work is required, a visit to your nominated "home" SMR repairer takes care of everything. Calas network then reimburse the dealer for the cost of the repairs\*.

\*Should accident damage of repairs be required that are outside your agreed level of cover or were found to have occurred through lack of fair wear and tear, then these charges would be the responsibility of the customer.

## Cars and Vans Need Care...

...and care is a cost.

Think of Calas fixed price maintenance as private healthcare for your vehicle. It brings you total peace of mind and reassurance. It's easy to arrange, it simplifies your budgeting and controls your costs. It's there if you need it. **And when you need it, it can save you money.**

### Calas fixed price maintenance is the best way to look after your company's fleet

It delivers actual savings not additional costs. You choose the level of cover you want including servicing, maintenance, repairs and tyres - separately or combined

## The Perfect Business Solution...

Calas - Maintenance

business customers

# calas for you

## Expect the Unexpected?...

...or remove the unexpected.

**If your business has purchased its vehicles through traditional Hire Purchase or cash acquisition routes, no maintenance option will have been available to you and the variable cost intake for your company is an unwanted hassle.**

Benefit from fixed cost at reduced rates rather than ad hoc costs at retail price.

Fixed budgeting wins out every time over variable costs. And, in these inflationary times, you know those variable costs are only going to spiral upwards. What's more you can add SMR fixed price agreements to any new or used vehicle up to 3 years old and 50,000 miles.

**Helping to make cost forecasting as simple as possible.**

### Tighter Cost Control - For Lease Customers Too

If you lease your vehicles, you can now opt out of their maintenance package and get a more cost-effective service through smr evolution.

Utilising different finance or lease providers with Calas maintenance means your business gets the best value for money, while ensuring flexibility and consistency, with outsourced vehicle and driver management that reaches the very highest professional standards.

### Your Duty of Care Obligations Are Covered

New legislation requires business owners to ensure any vehicle being used for company business, regardless of whether they are owned by the company or not, is insured and tested to MOT standards. Companies must also provide an audit trail and ensure vehicles undergo routine servicing, maintenance and repairs.

**Calas is the simplest way for you to meet these obligations as all vehicles are maintained in line with the manufacturer's recommendations. Plus we keep you updated on all new legislative demands.**

Calas has a package to suit your business needs, covering everything from tyres to full care packages, including servicing, maintenance, repairs and AA breakdown cover, & more

### Pay As You Go Fleet Management

If you would like the benefit of our professional cost control and access to our national network, we offer a FMA (Fleet Management Agreement) which is not limited to any mileage restriction or vehicle age. All costs are authorised on your behalf and would be recharged on a monthly statement. Agreements operate for a minimum of 60 days with 30 days termination required.

For further information on our FMA product please visit [www.calas-maintenance.co.uk](http://www.calas-maintenance.co.uk) or contact your approved calas vehicle maintenance partner
